

CAREPLUS™ WIRELESS NURSE CALL

CarePlus™ Wireless Nurse Call System is an improved and versatile solution designed to embrace the dynamic requirements modern aged care facilities demand. Devised with compatibility in mind, this release is highly efficient, highly intelligent and highly sophisticated. The results of traditional systems are combined with revamped operational functions for next generation, real-time wireless communication. This system is ideal for aged care facilities, mental health facilities, drug and alcohol units, dementia units, and day surgeries. Broad access and coverage of an area is leveraged through LPWAN (Low Power Wireless Area Network), which can be merged economically with current legacy equipment. LPWAN utilises RF 920 MHz in the medical and scientific band with a user-friendly design. Intelligent and flexible integration provides no restrictions to building constraints or locations as the low power wireless networking connects people, process and technology for communication integrity. The CarePlus™ Wireless Nurse Call System is a very cost effective, robust and superior solution for the healthcare industry.

UK – Europe office:

Unit 9, Miller Court, 43 Station Road
Kenilworth, Warwickshire,
CV81JD, United Kingdom

Features & Main Benefits:

- Freedom of choice and location: No cables required.
- Faster performance and better integration.
- Utilises the LPWAN Low Power Wireless Area Network.
- RF 920 MHz in medical and scientific band (LPWAN).
- IP-HUB Controller is network attachable for remote maintenance.
- Increased battery life, more than seven years.
- Improved functionality and infrastructure.
- User-friendly for staff and patient satisfaction.
- Guaranteed communication integrity.
- Economical installation.
- Integrates into CarePlus™ Wired Nurse Call/Existing legacy equipment.

Example of options available

WIN-IP-HUB	Wireless Intelligent Network - IP-HUB
WIN-RX	Wireless Intelligent Network - Receiver
WIN-SCP-NC-G	Wireless Intelligent Network Smart Call Point - Nurse Call – Green
WIN-SCP-SA-Y	Wireless Intelligent Network Smart Call Point – Staff Assist – Yellow
WIN-SCP-EMG-R	Wireless Intelligent Network Smart Call Point - Emergency – Red
